# Welcome to Altro

---

Altro have been at the forefront of innovation for over 100 years. Today, working closely with architects, end customers, engineers, designers and contractors around the world, our insight and expertise help them transform everyday spaces into environments that can improve the wellbeing of everyone that uses them.

And by consistently turning creative thinking into practical, real-world solutions – that maintain the highest standards of safety and durability – Altro have become synonymous with quality.

As a family-founded business, we have a strong sense of what we value and a way of thinking inspired by The Bauhaus – a balance of quality, form and design-led function – that puts people’s needs at the heart of everything we do. It’s a human-centred approach to designing for the demands of 21st century life.

It’s a history that means we value the bold, the brave and the new. From focusing on how the different sectors we serve need their spaces to perform, to the call for more environmentally sustainable materials, Altro are constantly challenging what is possible and seeking new ways of inspiring our customers and answering their biggest challenges.

With offices across Europe, the Americas, Asia Pacific and the Middle East, we remain committed to developing solutions that stand the test of time.

We combine the best in contemporary style with the functionality required to improve the way we all live and work, wherever in the world that may be.

We are Altro.

## Altro Stronghold 30

### Application areas:

- Commercial kitchens (not domestic)
- Cold rooms
- Food preparation and service areas where grease, oil, fats are present
- Sloping ramps

Water underfoot is treacherous enough – add grease, oils and fats, and you've got a dangerous environment. So, for commercial kitchens, canteens, food preparation and service areas, it's essential to select flooring that will help catering staff do their job safely.

Altro Stronghold 30 is frequently specified with Altro Whiterock White and Altro Whiterock Satins to create safe and hygienic environments in commercial and industrial kitchens.
