

1) Ensure the area to be covered is weed free, preferably by using a systemic weed killer. Rake the soil to a smooth surface.

2) Level and prepare ground treating with a systemic weed-killer. Unroll to desired length using gridlines to ease laying out. Overlap adjacent sections by 75 mm (3") and cut with scissors or knife.

3) For beds and borders fit fabric around existing plant. To plant through the fabric cut crosses

4) To create a garden walkway place gravels, pebbles or stones directly on to the fabric to a depth of 50 to 75mm.
